Colon Facts

Colon Cancer is the number two cancer-related cause of death in the United States.

A staggering fact is that Americans spend a billion dollars annually on laxatives. Second only to over-the-counter pain relievers, laxatives, antacids and stool softeners are the biggest sellers.

Inefficient Colon function causes poisoning of the blood, weakening the immune system and causing a variety of diseases.

Constipation can be associated with the refusal to release old ideas.

If you are not experiencing a bowel movement for each meal, you are storing it in your colon.
